THE TROPHY

The trophy of The BrandLaureate Medical & Healthcare Advancement BestBrands Awards 2026 stands as a profound symbol of life, progress, and the unwavering pursuit of excellence in healthcare.

At its core, the design is inspired by the DNA double helix—the very blueprint of life—representing the foundation upon which all healthcare advancements are built. This iconic structure signifies continuous evolution, innovation, and the intricate balance between science, care, and humanity. Just as DNA carries the code of life, this trophy embodies the essence of brands that are shaping the future of healthcare through purpose-driven impact.

The elegant upward flow of the helix reflects progress and transformation, symbolising how healthcare leaders constantly push boundaries to improve lives, enhance patient outcomes, and elevate standards of care. It is a visual testament to resilience, precision, and the relentless commitment to advancement in an ever-evolving global landscape.

Encased in a refined, pillar-like form, the trophy represents strength, trust, and integrity—the very pillars upon which healthcare brands are built. The gold finish signifies not only excellence and prestige, but also the invaluable role these organisations play in safeguarding human life and wellbeing.

Crowning the structure is The BrandLaureate emblem, an authoritative mark of distinction, recognising those who have achieved excellence across brand performance, strategy, communication, culture, and equity. It affirms their position as leaders within the healthcare ecosystem.

More than a symbol of recognition, this trophy is a tribute to those who heal, innovate, and transform. It honours brands that go beyond treatment—those that build trust, inspire confidence, and contribute meaningfully to a healthier, more sustainable future for all.

ADVANCING HEALTHCARE. ELEVATING TRUST

**THE HONORABLE PRESIDENT EMERITUS
PROF. DR KKJOHAN**
WORLD PRESIDENT OF THE BRANDLAUREATE

In today's rapidly evolving world, healthcare stands as one of the most vital pillars of humanity—where trust, clinical innovation, and compassion converge to shape lives, communities and futures. Beyond systems and services, it is the strength of a healthcare brand that reassures, inspires stakeholders confidence, and delivers outcomes that endure.

At The BrandLaureate, we believe that everything about healthcare is trust, and everything about trust is the brand. The BrandLaureate Medical & Healthcare Advancement BestBrands Awards 2026 is a distinguished celebration of those who have gone beyond treatment to architect meaningful, sustainable, and transformative healthcare experiences that set new benchmarks in the industry.

From frontline providers and medical innovators to pharmaceutical leaders and ecosystem enablers, this Award recognises brands that exemplify excellence across performance, strategic leadership, patient communication, organisational culture, and healthcare equity—building not only thriving businesses, but healthier, more resilient societies.

In an era where medical technology, evolving patient expectations, and complex global challenges continue to redefine the landscape, it is those who lead with purpose, integrity, and forward-thinking vision who will shape and determine the future of healthcare.

This recognition is more than an accolade—it is a testament to your unwavering commitment to care, your relentless pursuit of medical excellence, and your role as a trusted steward of life and wellbeing.

I invite you to be part of this meaningful journey, as we honour the brands that are not only healing today, but boldly building a healthier tomorrow.

BESTBRANDS AWARDS 2026

Not through noise. But through precision, responsibility, and intent. Today, that mission takes on a new form. In collaboration with The BrandLaureate, under the leadership of President Emeritus Prof. Dr KK Johan a name synonymous with brand excellence for over two decades.

We are proud to pioneer a platform that finally gives healthcare the standard it deserves. Not just to recognise. But to define. Because this is not about creating another stage. This is about creating meaning. And meaningful platforms are never built alone.

They are built by people who see not just where healthcare is but where it is going. Together with my Managing Partner, Aiman the driving force behind Brandstorm's rise as a serious player in healthcare branding

Alongside Dr. Malwinder, "The Bald Oncologist", a key opinion leader and influencer who has transformed how oncology is communicated with honesty, reach, and real human connection.

And with the strategic guidance of Dr. Mahesh Appannan, Director of Digital Health, Ministry of Health Malaysia (KKM) a key architect of the nation's digital health future. What we have here is not just collaboration. It is alignment at the highest level.

Where branding meets clinical authority. Where public influence meets national direction. Where visibility is anchored by responsibility. So let me be clear. This is not just an award. This is a signal. To the public that these names represent trust you can stand on.

To the industry that the bar has been raised. And to those who receive this recognition that this is not a title to hold. It is a standard to live up to. We are not here to follow momentum.

We are here to set it. And this... is only the beginning.
